

# IRIS Employment Verification - Work Report™ - Employee Fact Sheet

IRIS has partnered with Experian to integrate with their Work Report™ solution.

Work Report™ simplifies the process of applying for loans, mortgages, and tenancy agreements by removing the manual process, of gathering employment and income data. No more rushing around hunting for payslips, employment contacts, or other documentation to support your application.

## How does it work?

It couldn't be easier.

1. Fill in your finance application, online, with your chosen provider and when asked for evidence of earnings, select to verify online with Work Report.
2. Enter your employment and income details and verify your information and your data is verified in real time during the application process.
3. Sit back and wait for the decision from your provider.

## What if I don't want to use the service?

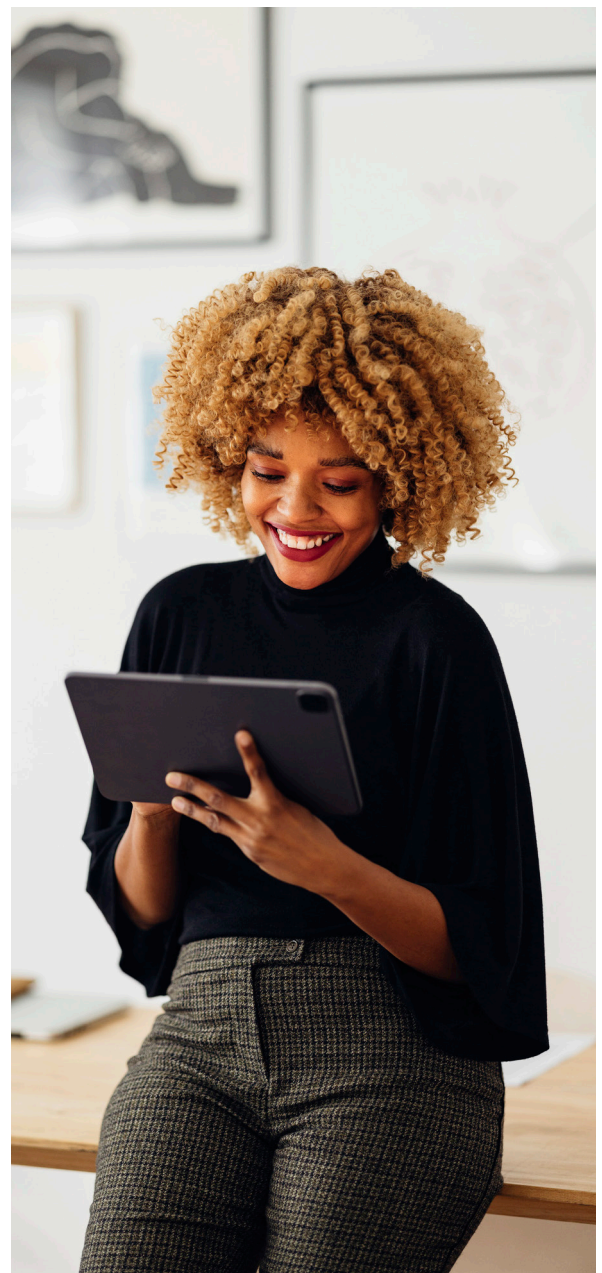

Don't use it. You can still verify your income and employment manually by gathering evidence of income and employment.

## Will my data be shared without my consent?

Your data is never shared without your consent.

## Is it secure?

Yes. Data is only shared if you provide consent via Work Report™, during the application process. The data is secured using the highest security levels.

## Features and Benefits

### It's quick

- Employment status and income is verified in seconds thereby saving time
- No need to gather payslips, bank statements, and employment contracts

### Reduces application processing time

- Speeds up the decision-making process as details are verified in real time

### It's safe and secure

- Since pay evidence is sourced directly from the employer, no payslips or sensitive information gets lost in the post or emails
- The automation of the processes removes the need for manual processing of data
- Reduces the potential for fraud as information is verified at source
- Employees are in total control of who they share their data with as consent is provided during

### It's secure

- Work Report™ checks if the employer is an IRIS customer. If the employee is found within the given employer records, the details supplied are then verified in seconds
