Preventing New Company Creation	3

Release Version 25.120

These release notes provide details on the final (End-of-Life) release for IRIS Payroll Business and IRIS Bureau Payroll. This is in line with previous communications issued on the product's end of life after the 2025/2026 tax year.

Please note that this release contains P60 configurations and is therefore mandatory for all customers completing their payrolls for 2025/2026 tax year.

P60 – 2025/2026 Tax Year

P60 layouts have been updated for the 2025/2026 tax year and include the new Statutory Neonatal Care Pay (SNCP) payments.

End-of-Life Message

A hard coded in-app message will inform all users that this is the final release, intended only for producing P60s for the 2025/2026 tax year.

This message will appear:

- Before the log in screen
- When payroll calculation is triggered
- On attempt to run Year End restart for rolling over to the 2026/2027 tax year as the product will no longer be legislatively compliant from 6th April 2026 onwards

Disable Year End Restart

The Year End Restart option will no longer be functional.

Preventing New Company Creation

Users will not be able to:

- Create a new company
 - If selected, users will see: 'The task cannot be completed. The product has come to it's End-of-Life
- Use Copy Company (except for receivership, which will continue to work as normal)
